

Do any of the following sound familiar to you or a family member?

Creative, bright and imaginative, but struggle with:

- ✓ Reading difficulties & poor spelling
- ✓ Difficulty with written tasks
- ✓ Poor short-term memory and concentration
- ✓ Low self esteem
- ✓ Frustration
- ✓ Poor co-ordination, organisation and balance

The DORE Programme treats the root cause of learning difficulties like Dyslexia, ADD, ADHD, or Dyspraxia, rather than just the symptoms

- Drug-free
- 93% Success rate
- Over 25,000 success stories worldwide
- Individually prescribed exercises to stimulate brain development
- Suitable for children over 7 years and adults

Wynford Dore, the founder of the pioneering DORE Programme for drug-free treatment of learning difficulties, will visit Cape Town on Wednesday 23 May 2007. Dore will present a free talk to the public in Cape Town on 23 May at the Rondebosch Boy's Preparatory School for parents and sufferers of learning difficulties like Dyslexia, Dyspraxia, ADD, ADHD, and Asperger's Syndrome.

Attend the talk to find out more about the DORE Programme and how Wynford Dore developed the programme to help his eldest daughter who had attempted suicide due to her severe dyslexia.

Come and see how the drug-free DORE programme can help you, or your child, reach your full potential.

Attend Wynford Dore's FREE talk at the following venue;

Cape Town Talk

Date: Wednesday 23 May

**Venue: Rondebosch Boy's Preparatory
School in Rondebosch**

Time: 6:30pm for 7:00pm
